

PERSONAL INFORMATION

Maria Faury

WORK EXPERIENCE

2014- Present	Deputy Director of the Physical Sciences Division Director of Programs and Evaluation CEA Commissariat à l'Energie Atomique et aux énergies alternatives. Saclay, France
2011 - 2013	Scientific Director for energy, sustainable development, chemistry and process engineering Ministry of Higher Education and Research, General Directorate for Research and Innovation Paris, France
2008 - 2011	Head of Department: Plasma Wall Integration (at the Magnetic Fusion Research Institute) CEA/Cadarache/France
2003 - 2008	Head of Department: Experimental Research and Studies on Nuclear Accidents IRSN (Institute for Nuclear Safety and Radioprotection), Cadarache, France
1999 - 2003	Experimental Project leader of Cabri International Program (RIA) CEA/IPSN/Cadarache/France
From 1996 to 1999	Head of Laboratory: Research and studies on nuclear decontamination processes CEA/Cadarache/France
From 1993 to 1996	R&D Engineer on decontamination processes CEA/Cadarache/France

EDUCATION AND TRAINING

2012-2013	IHEDN auditor (Institute of High Studies for National Defence) Paris, France
1992	Post Graduate degree : supramolecular and molecular Chemistry University of Toulouse (UPS), France
1988-1992	Engineering degree in Physics and Chemistry ESPCI Paris, France

ADDITIONAL INFORMATION

Professional Interests	<p>Since 2008, I have followed the fusion activities through different professional positions. As head of the department "plasma wall integration", I have managed programs related to plasma facing components and plasma wall interaction</p> <p>At the Ministry of higher education and research, I was in charge of following fusion research activities (relationship with Euratom, AIF, coordination with other Ministries for the hosting of ITER in France, budget preparation)</p> <p>Today, as deputy director of the Physical Science Division, and director of the programs, I am involved in the monitoring of the fusion program implemented by the Magnetic Fusion Research Institute (IRFM) and the Broader Approach Program.</p>
Projects	Chair of a consortium of 5 European laboratories for the Port Plug 11 (Plasma facing components monitoring): 2008-2011
Memberships	French Representative of the Euratom Fusion consultative committee (2011-2013)
Publications and Patents	None in fusion domain
Other Relevant Information
